

TAKING YOU TO THE NEXT LEVEL

Elevated Technologies, LLC (Elevated), provides a comprehensive suite of solutions including integrated information technology, training product development and delivery, technical documentation, and Intelligence, Surveillance, and Reconnaissance (ISR) integration and sustainment. Our current government end-users include the DoD and DHS.

CONTRACT PERFORMANCE

TETHERED AEROSTAT RADAR SYSTEM (TARS)

Prime Contract Number: 70B02C23C00000053

- Operations & Maintenance
- Network Engineering
- Technical Documentation
- Training

PDA SYSTEMS ENGINEERING & TECHNICAL ASSISTANCE (SETA)

Prime Contract Number: W56KGY-16-C-0008

- Software & Networking
- Aerostat Operations
- Testing & Evaluation
- Site Maintenance
- System Administration

KINGDOM OF SAUDI ARABIA (KSA)

Prime Contract Number: W56KGY-21-R-0003

- Training
- Engineering Support
- Technical Documentation

PERSISTENT SURVEILLANCE SYSTEMS - TETHERED (PSS-T)

Prime Contract Number: W56KGY-19-D-0020

- Software & Networking
- Training
- Testing & Evaluation
- System Integration
- Technical Documentation

GSA MULTIPLE AWARD SCHEDULE

Contract Number: 47QTCA24D003E

- 54151S Information Technology Services
- 611420 Information Technology Training

ISO 9001:2015
CERTIFIED COMPANY

SERVICE-DISABLED
VETERAN-OWNED
CERTIFIED

CORE COMPETENCIES

Training

- Product & Curriculum Development
- Program Execution
- Training Formats
 - Classroom-Based, E-Learning, On-the-Job, and Train-the-Trainer

Information Technology & Integrated Services

- Network Engineering
- Infrastructure Design and Management
- Tactical Communications Architecture
- System Integration
- Defensive Cybersecurity

Technical Documentation

- Technical Writing
- Technical Illustrations
- Editing & Proofreading

Field Service Representatives

- System Support
 - On-Site, Remote, or Hybrid
- System Repairs
- Personnel Training

Aviation Maintenance

- Training
- Management
- Quality Assurance & Control

AVIATION MAINTENANCE

Elevated employs a team with over 200 combined years of aviation expertise. We employ a cadre of senior aviation maintenance managers, including retired maintenance Master Chiefs (MMCPO's) from the organizational and intermediate levels.

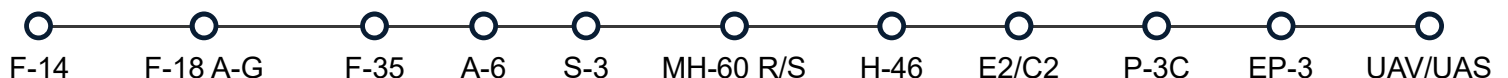

MAINTENANCE PROFESSIONALS

Our experience includes large-scale programs such as, but not limited to, Fleet Replacement Squadrons (FRS), Carrier Air Wings (CVW), and Fleet Readiness Centers (FRC). In addition, we employ several former senior enlisted technicians, managers, and instructors capable of teaching maintenance processes and in-flight procedures to maintainers and aircrew. Our employees, well versed in quality assurance and control, are able to inspect large-scale maintenance and flight programs for compliance and provide process improvement mentoring to program managers.

EXPERIENCE

- ✓ CVW Operations
- ✓ FRC
- ✓ CNATT/CNATTU
- ✓ FRS
- ✓ NAVAIR
- ✓ NAWCTSD

AIRCRAFT PLATFORM EXPERIENCE

TRAINING DEVELOPMENT

- Performing knowledge capture, analysis, and Interactive Multimedia Instruction (IMI) for curriculum development and delivery.
- Offering classroom, computer or web-based operations and maintenance training.

ADDITIONAL CAPABILITIES

-  Safe for Flight
-  Test Bench Operators
-  MTS Instructors
-  NATOPS Evaluators

TECHNICAL DOCUMENTATION

- Creating and updating technical documentation products required for program sustainment.
- Conducting user testing, validation, and verification, our technical writers ensure equipment procedures are technically accurate.
- Delivering end products to include interactive electronic technical manuals (IETMs), engineering drawings, system topology, network diagrams, etc.
