

TAKING YOU TO THE NEXT LEVEL

Elevated Technologies, LLC (Elevated), provides a comprehensive suite of solutions including integrated information technology, training product development and delivery, technical documentation, and Intelligence, Surveillance, and Reconnaissance (ISR) integration and sustainment. Our current government end-users include the DoD and DHS.

CONTRACT PERFORMANCE

-  **TETHERED AEROSTAT RADAR SYSTEM (TARS)**
Prime Contract Number: 70B02C23C00000053
 - Operations & Maintenance
 - Network Engineering
 - Technical Documentation
 - Training
-  **PDA SYSTEMS ENGINEERING & TECHNICAL ASSISTANCE (SETA)**
Prime Contract Number: W56KGY-16-C-0008
 - Software & Networking
 - Aerostat Operations
 - Testing & Evaluation
 - Site Maintenance
 - System Administration
-  **KINGDOM OF SAUDI ARABIA (KSA)**
Prime Contract Number: W56KGY-21-R-0003
 - Training
 - Engineering Support
 - Technical Documentation
-  **PERSISTENT SURVEILLANCE SYSTEMS - TETHERED (PSS-T)**
Prime Contract Number: W56KGY-19-D-0020
 - Software & Networking
 - Training
 - Testing & Evaluation
 - System Integration
 - Technical Documentation
-  **GSA MULTIPLE AWARD SCHEDULE**
Contract Number: 47QTCA24D003E
 - 54151S Information Technology Services
 - 611420 Information Technology Training

CORE COMPETENCIES

Training

- Product & Curriculum Development
- Program Execution
- Training Formats
 - Classroom-Based, E-Learning, On-the-Job, and Train-the-Trainer

Information Technology & Integrated Services

- Network Engineering
- Infrastructure Design and Management
- Tactical Communications Architecture
- System Integration
- Defensive Cybersecurity

Technical Documentation

- Technical Writing
- Technical Illustrations
- Editing & Proofreading

Field Service Representatives

- System Support
 - On-Site, Remote, or Hybrid
- System Repairs
- Personnel Training

TRAINING SOLUTIONS

At Elevated, we believe high-quality training is essential to the success and efficiency of program sustainment. We are committed to providing optimized training services to commercial customers, foreign partners, and government agencies including the Department of Defense (DoD) and Department of Homeland Security (DHS).

TRAINING PROCESS

Delivering comprehensive training programs for information technology, aviation maintenance, and intelligence, surveillance, and reconnaissance (ISR) disciplines. Utilizing Instructional System Design (ISD) we analyze existing documentation and processes to identify critical training gaps and create the approach best suited to mission success.

PROCESS IN ACTION

87% Reduction in mean time per occurrence from new training course identified and implemented by Elevated on the PSS-T program. Increased site operation time by **500+** hours annually.

CUTTING-EDGE TECHNOLOGY

- Utilizing the latest multimedia tools and technology, our trainers and instructional designers create interactive and engaging training programs; ensuring continued participant motivation.
- Creating accessible delivery modalities: Classroom-based, e-learning, on-the-job training, and Train-the-Trainer

CUSTOMIZED TRAINING

- Tailoring training programs to meet the specific requirements of end users, through collaborative design process.
- Maintaining program sustainment against customer requirements.

EXPERIENCED TRAINERS

- Understanding of current technologies and industry best practices.
- Possessing years of experience in delivering programs to a wide range of audiences.

COMPLIANCE AND QUALITY ASSURANCE

- Creating and evaluating training programs against governing agency requirements.
- Ensuring quality of training programs through continuous improvement, evaluation, and end-user engagement.
